

國立中山大學 111 學年度學士後醫學系招生考試試題答案疑義釋疑公告

科目	題號	釋疑答覆	釋疑結果
英文	46	<p>題目是問「Dr. Pauling 的維他命觀點(Dr. Pauling’s view as regards vitamin C)怎麼了」，並非問「Dr. Pauling 視 Vitamin C 為何物」，as regards 的意思是 concerning/about，在此並無「視為何物」的意思；此外，根據選文: But so far, they’ve found little proof that vitamin C prevents colds. In fact, there are more studies that say it doesn’t. But there is evidence that it can keep coughing and sneezing to a minimum, and that low levels of vitamin C in the body may be related to bronchitis，故根據短文，維他命量低可能和 bronchitis 有關，但 A 答案 has greatly improved the treatment of bronchitis 顯然與選文內容不符，故為錯誤的選項。</p>	維持不變(E)
