學分學程理念 Introduction of Interdisciplinary Programs

透過跨域學程彈性學習、建立多元專長、深化跨界整合能力，以因應快速變動的世界。修畢【整合學程】、學系(所)專業學程】或【微學程】規定學分後，學生在畢業前依本校行事曆於規定期限內(每年 4 月及 11 月)申辦學程證書者，畢業證書上即會加註所修習之領域專長，不僅培養第二專長還能為學位證書進行加值。

Our interdisciplinary programs facilitate flexible learning and help students develop broad-based expertise, strengthening their ability to integrate multidisciplinary knowledge and skills to better adapt in today's fast-changing world. After completing integrated programs, faculty/department professional programs, or micro integrated programs, prospective graduates who apply before the deadline (every April and November in the academic calendar) will be issued a graduation certificate that indicates their field of study, which cultivates a second area of expertise and increases the value of your degree.
