1. Teaching (Total score in 5 years is 100 points maximum)

A1. Teaching Honors (Maximum 10 points)			
Total Score (A1): =		Points (The sum of total points of A11~A17)	
Section	Point	Score	Reviewed/Approved by faculty members and Department/College
A11. NSYSU Teaching Award of Excellence (formerly the Outstanding Teaching Award).	8 Points/each		
A12. NSYSU Best Teaching Faculty Members Award (formerly the Best Teaching Award).	3 Points/each		
A13. Outstanding Teaching Faculty Members Recommended by the College	2 Points/each		
A14. Outstanding Teaching Faculty Members Recommended by the Department	1 Points/each		
A15. Awarded for University-Level Best Teaching Course	1 Points/each course		
A16. Awarded by other teaching related honorary awards for the profession of teaching	Reviewed/Approved by Faculty Evaluation Committee of College in accordance with levels of scores from A11 through A15 (1-10 points).		/

Note #1: During one academic year, Faculty Members awarded by the followings shall not double-count the points. The awards are: NSYSU Teaching Award of Excellence (formerly the Outstanding Teaching Award), NSYSU Best Teaching Faculty Members Award (formerly the Best Teaching Award), Outstanding Teaching Faculty Members Recommended by the College, and Outstanding Faculty Members Recommended by the Department.

Note #2: For A14, should the Outstanding Teaching Faculty Recommended by Department be given during the evaluation data collection period, points for this category as listed above will be awarded to the recipient.

A2. Teaching Effectiveness (Maximum 70 points)
 The sum (A2)=A12+A22= Points

Section	Points	Reviewed by Faculty Members and Department/ College
<p>1. Professors: $\Sigma_{10} \text{ semester } \{ \text{total course hours per semester} \times 0.55 \times \max((\text{average score of Teaching Opinion Survey per semester} / \text{average score of Teaching Opinion Survey for College Faculty Members per semester}), 1) \times \max((\text{teaching equivalent per semester} / \text{average teaching equivalent of college Faculty Members per semester}), 1) \}$.</p> <p>2. Associate Professors, Assistant Professors, Lecturers: $\Sigma_{10} \text{ semester } \{ \text{total course hours per semester} \times 0.5 \times \max((\text{average score of Teaching Opinion Survey per semester} / \text{average score of Teaching Opinion Survey for College Faculty Members per semester}), 1) \times \max((\text{teaching equivalent per semester} / \text{average teaching equivalent of college Faculty Members per semester}), 1) \}$.</p>	<p>A21= Points (Maximum 60 points)</p>	

Note#1 : A21 Calculation is based on NSYSU Regulations for Faculty Members Evaluations, starting from first 5 academic years (10 semesters) (Deduct leave from position retained with or without pay or long sick leave)

Note#2: Course hours are calculated based on NSYSU course lecturing hours (**lecturing hours for on-the-job and executive master's program are not calculated**). Faculty members who hold additional role shall count back the calculated hours (**faculty's actual lecturing hours + additional role count-back=lecturing hours**). Compensate hours shall be counted back to basic course hours counting of every job level.

Note#3: Minimum weight of Teaching Opinion Survey is 1; minimum weight of teaching equivalent is 1.

Note#4: On the calculation for max ((average score of Teaching Opinion Survey per semester/ average score of Teaching Opinion Survey for College Faculty Members per semester), 1) × max((teaching equivalent per semester /average teaching equivalent of college faculty members per semester),1) }, the formula is designed to encourage faculty members with higher teaching equivalent score. Faculty members with lower teaching equivalent score shall be weighed with minimum 1, so to protect faculty members' rights. Calculation is stated as follows:

- 1) If the faculty member's average teaching equivalent is higher than average teaching equivalent score of the college (this means score of "teaching equivalent per semester/ average teaching equivalent of college faculty members per semester" is higher than 1), weighing point would be "teaching equivalent per semester/ average teaching equivalent of college faculty members per semester."
- 2) If the faculty member's average teaching equivalent is lower than average teaching equivalent score of the college (this means score of "teaching equivalent per semester/ average teaching equivalent of college faculty members per semester" is lower than 1), weighing point would be 1.
